ISSUE NO 1

WORK DONE SO FAR...

Tamarap International Company Limited, through its food brand (PachaMama Foods), has a history since 2017 of transforming the lives of children, mothers and adults through healthy, natural and affordable food products from local Nigerian farmers and made under international quality standards.

Through its first product, "Tom Brown PLUS," and other products, PachaMama Foods have tackled malnutrition in children between the ages of 6 months and 5 years and malnourished pregnant mums in all 277 Primary Health Centers in Lagos state.

Also, over **250,000** pupils under the Federal Government National Home-Grown School Feeding programme in Plateau state, and thousands of pupils in their healthy lifestyle journey have benefited from our initiatives.

PERCEVAL & KNIGHTS...

Our social impacts as a result of our activities inspired our CEO – Tamara Egbedi, to seek more ways to support the government to combat malnutrition, enhance quality education, ensure zero hunger and help the vulnerable in society, in schools outside the School feeding programme.

It's for this reason she founded **Perceval and Knights Foundation** which is a Not-for-Profit organisation which has an integrated approach to achieve its objectives which includes healthcare, education, income generation, and social empowerment to reduce poverty and hunger.

PROJECT PARTNERSHIPS...

As a result of both companies visions, PachaMama Foods and Perceval and Knights Foundation decided to collaborate and start the **“Keep the Kids in School”** project.

This project, with the support of Plateau State Universal Basic School Board (SUBEB), aims to equip nursery and primary school pupils whose schools are not part of the current Federal Government School Feeding programme.

They would have access to free meals, educative materials, uniforms amongst others.

These are key for the pupils brain development, enthusiasm to learn, retention in school and physical development and health.

PROJECT PARTNERSHIPS...

In October 2023, feeding of Tom Brown PLUS (a product of PachaMama Foods) and accompanied beancake started successfully in two nursery and primary schools (L.E.A. Kunyi Katse in Jos North LGA and L.E.A. Zot Badin in Jos South LGA).

The pupils' weight, BMI, and other details were captured for impact measurement.

FLAG OFF CEREMONY

On 13th December 2023, the official flag-off ceremony took place at L.E.A Primary school, Zot-Badin, Beside NDLEA Academy, Jos, Plateau.

In attendance were representatives of the Plateau State government, state representatives of the RH-NHGSFP, representatives of the State Universal Basic Education Board, community leaders, pupils, teachers, and other stakeholders.

FUTURE PLANS

We hope that in 2024, we can expand from the current two schools in 2 different local governments we engage to at least a school in each 17 local governments in Plateau states and in other states.

We believe it takes a whole community to make this a success and look forward to obtaining support and have lasting partnerships with individuals, NGOs, companies, government and international agencies to make this a reality in the lives of the kids.
